

## Rite 4 – The Seer rite

### **The seer brings awakening**

This rite installs filaments of light extending from our visual cortex to our third eye and our heart chakras creating “crown of light” and a “necklace of light”. This re-wiring of our perceptual centers has the potential to awaken our ability to perceive the invisible world. It offers us the opportunity to perceive with more than our image based eyesight. This awakens the “inner seer” and your ability to perceive the invisible world. Many who receive this rite find that after a few months they are able to perceive the world of energy and spirit around them.

After receiving this rite provided we follow through with the dedicatedly unpacking, germinating and growing the installed potential, we will be able to ‘see’ parts of ourselves previously hidden from view. Those parts of ourselves we may not have previously been prepared to recognize can now be seen with compassion and brought into the light for healing. Outside ourselves it similarly allows us to ‘see’ the world from a compassionate viewpoint and ‘see’ beyond the apparent to the underlying causes of situations and behaviors.

You will begin to see through the eyes of your heart and soul. Some of us go on in time to develop an ability to ‘see’ the energy fields surrounding us.

**As you develop Seer skills you will begin to engage using different levels of the mind.**

**LITERAL** – relates to the physical body and everyday life (i.e. pay bills etc.). Shamans do not usually work in this level.

**SYMBOLIC** – relates to the emotional body (i.e. pain in shoulder equates to anger). Shamans work in this level.

**MYTHIC** – relates to the soul and its individual journey and usually communicates via symbols and pictures. A person's story can be written at this level. Shamans work in this level.

**ENERGETIC** – relates to the energy field. Work at this level does not require that you know anything specific, but just clear dense energy. Shamans work in this level

### **TRANSMITTING THE SEER RITE**

Introduce the Seer rites – i.e. “I am going to share with you the seer rites which will open your seeing skills so you can perceive the invisible world of energy and spirit.”

Ground to Pachamama. With the protégé seated the mentor stands behind them and opens personal sacred space and encompasses the protégé within (Wiracocha)

The mentor places their hands on the protégé shoulders to encourage a balancing of the Divine masculine and feminine energies. And then active your own pathways of lights, connecting to initiate.

Stand in front of initiate, put two fingers on initiates visual cortex (spot between base of skull/neck and head) with the fingers cradling the back of the head and the other hand with the Pi stone on the initiates third eye.

Use Pi Stone and trace a line over the crown and down to the center back of the head, resting just below the large skull bone; the point of the visual cortex. Imagining the installing at an energetic level, golden pathways of light connecting these two centers of activity. Keeping one free hand firmly on this point of the visual cortex the mentor weaves the Pi stone back to the protégé's third eye. (*Third Eye over crown to Visual Cortex and back again.*)

Now tracing an arc diagonally across the brow, around the side of the head to connect with the visual cortex. Then repeating this process on the opposite side of the head. (*Third Eye diagonal each side of initiates head to Visual Cortex and back again.*)

Repeating the process again this time tracing just above the ear on either side of the head linking to the visual cortex. (*Third Eye above each of the initiates ears to Visual Cortex and back again.*) Hold Third eye and back of head to anchor visualizing the pathways of light lit up.

Again leaving one hand on the visual cortex, take the Pi stone to the heart center, installing the final pair of linking filaments from the heart, up over the shoulder, up the back of the neck to the visual cortex. (*Heart to Visualize cortex and back again on both sides. Option to do again for High Heart to Visual Cortex and back again.*) Hold Heart and back of head to anchor visualizing the pathways of light lit up.

Keeping the Pi stone on the point of the visual cortex the mentor places their free hand firmly over the protégé's third eye to allow time for the full connection process to take place.

The mentor closes personal sacred space (Wiracocha).

Tell initiate they have just received the seer rites. Congratulations.
