

Rite 7 – The Earthkeeper rite

The Earthkeepers hold stewardship for the entire earth

This rite takes the form of an energetic transmission that connects us to the lineage of Earthkeepers, Archangels that are guardians of our galaxy. It offers us the possibility, through our alignment with this lineage of Earthkeepers, to start the process of learning the ways of the seer and of dreaming the world into being.

The Earthkeepers are reputed to have human form and be as tall as trees. They are connected to the stars and to the sun, our local star. They are stewards for all life on Earth. The rite of the Earth keeper helps you to learn the way of the seer, and to dream the world into being. This rite connects you to the Stars and the Sun (our local star). It hold the stewardship of the entire earth and becomes peace.

After taking this rite, as Earthkeepers, who are stewards of all life on earth, we come under the direct protection of these Archangels and can summon their power when necessary to bring healing and balance to any situation. Our task, as theirs, is to be the living embodiment of peace. This rite calls in Earth, Mountain, Stars into the three chakras: Earth in the solar plexus chakra during the rite transmission, Mountain in the heart chakra during the transmission, and Stars in the third eye during the transmission.

TRANSMITTING THE EARTHKEEPER RITE

Introduce the Earth Keepers rites-i.e. - “I am going to share with you the earth keeper’s rites which will connect you with the archangels that are the guardians of our galaxy, the stewards of all life on Earth. It will help you to learn the ways of the seer and dream the world into being”. The mentor stands behind the seated protégé.

Ground to Pachamama. Opening personal sacred space and encompassing the protégé (Wiracocha)

Placing hand on the shoulders to encourage a balancing of the Divine Feminine and Masculine energies. Connect to initiate and to the lineage of the EarthKeeper (Pachamama/Earth, Mountain, Stars). Call in the Earthkeeper rites.

The mentor places the pi-stone on the crown while making a tube with their hands and blows down through the chakra system to prepare it for transmission; blowing in the rites and intention of the Earthkeeper.

The mentor then moves to sit opposite the protégé. Placing both hands upon their heart center and attunes themselves to the energy of the Earthkeepers.

Transfer rites to the 3 power centers (Power Center/Belly, Heart and Third Eye)

Holding the intention of attuning the protégé, calling in the Earth and EarthKeepers, the mentor leaves one hand upon the heart and places the other over the protégé’s belly/Solar Plexus to allow the attunement to take place. Connecting to the Power of the EarthKeepers.

The mentor returns their hand to their heart chakra, call in the Mountains and EarthKeepers, connecting to the unconditional love of the EarthKeepers. and repeats this process for the protégé at the heart and calling in the stars and energy of EarthKeepers, calling in the vision, the clarity and understanding of the EarthKeepers, third eye chakra.

With both hands upon the heart center, the mentor calls for the Earthkeepers. Again holding intention of transmitting the rite, and removing themselves from the process of transmission, leans forward so both foreheads are touching, maintaining this position to allow transmission to take place.

The mentor releases the protégé and returns to upright position with both hands at the heart, and allows the Earthkeepers to complete their work and withdraw if they desire to.

Mentor closes personal sacred space (Wiracocha). Congratulate initiate.
